1435 Oakland Mills Road
Columbia, MD 21046

SUBJECT: FCC Class II Permissive Change

The intension of this application is to enable the modular certified FCC ID: VV7-MBMF5521GW1, dated 12/22/2010 to be co-located with BT module with FCC ID: PPDT77H056 and WLAN module with FCC ID: HLZ-AR5B95 in host system; to certify the additional of certified FCC ID: VV7-MBMF5521GW1 as a Class II Permissive Change in host Notebook, Model Name: PAV70, PAV80, Trade Name: Acer, Gateway, PackardBell.

Antennas tested in the original approval are being used in this Laptop Configuration:

Brand Name	Wistron NeWeb Corporation	
Part Number	WWAN Main	DQ6T15GGN00
	WWAN Aux	DQ6T15GGN00
Antenna Gain (dBi)	GSM850	-2.39
	GSM1900	1.63

The modules mentioned above have been approved and were electronically and mechanically identical to the original modular instructions and requirements. In addition, the separation distance from human body is less than 20 cm (please refer to page D2 of our uploaded file" F5521gw_RFExpPho.pdf"), thus SAR measurements were performed. The highest SAR value for the device is **0.067 W/kg** and was tested for typical laptop operations contacted directly to the human body. To maintain compliance with FCC RF exposure requirements, users should avoid direct contact to the transmission antenna during data communication. Acer will satisfy other grant conditions , operating and installation requirement for all transmitters incorporated in the host PAV70 and PAV80.

Should you have any enquiries or comments, please have my best attention.

Sincerely Yours,
